

Reserved Camping 2017

Petty International Raceway is pleased to offer reserved camping spaces for the 2017 race season. Many campers have asked for this over the past couple seasons and now with the recent parking lot addition, as well as gravel based access roads, we are finally able to do this.

Reserved spaces will only be available in certain areas and will be marked with your name for the entire 2017 season and will remain empty even when you are not in attendance. This gives campers the option no matter when they arrive their space will be there. This will also apply to all existing seasonal camping.

The price will be \$150.00 for the full season. These are unserviced sites and trash cans will be placed in an easily accessible location. If the site is empty between events the grass will be cut. One camper per space (tents not included) .

For those not wishing for this option, there will still be ample camping spaces available at the raceway. Petty International Raceway reserves the right to charge camping fees for certain events throughout the season.

We will do our best to place families and friends together, but it will be first-come first-served basis.

Please remember this is a parking lot of a racetrack and although we do not have quiet time at this point, please be considerate of your neighbors.

Campers can no longer be left at the track between events without track owner's authorization.

Petty International Raceway assumes no liability or responsibility for any personal property left on the premises.
